

COLLECTIVE

DESIGN + FURNISHINGS

Create spaces that inspire lifelong memories.

Collective Design + Furnishings was founded with a simple goal: make it easy and enjoyable for Rocky Mountain homeowners to create inspirational spaces by combining sophistication with a distinct sense of place.

We offer full-service interior design through an award-winning team of designers, paired with a premier retail boutique, allowing us to satisfy a broad range of styles.

Because, as our designers can attest, everyone has unique needs, preferences and ways to realize their vision of home.

Interior Design

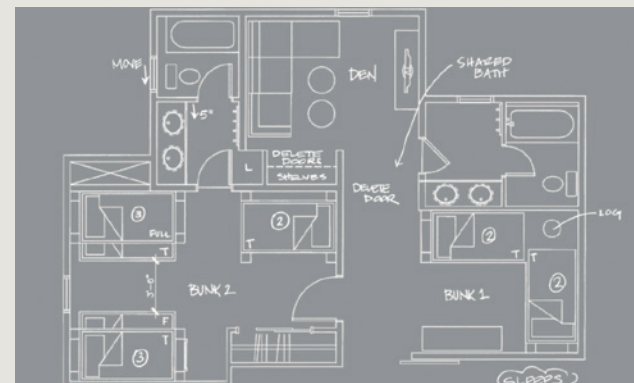

By employing a fresh, mountain-modern approach to luxury home design, our designers work with you to ensure your unique perspective is reflected in the spaces we create together.

Our comprehensive, collaborative process yields spaces that don't fit a particular mold, but that evolve in response to the people who inhabit them. Our diverse team of experienced designers begins each project by developing a thorough understanding of each client's lifestyle, needs and aesthetic preferences. As a design unfolds, that vision is

translated into original spaces that feel comfortable, current and deeply personal.

Our core service is Furnishings and Accessories Selection. We'll hand-select pieces that define or enhance your personal style through a supplier network that helps maximize your buying power.

And being "full-service" means we can help with any other aspect of your interior design project, too, from Space Planning and Finish Selection to Lighting and Window Treatments.

"I rave about the partnership I had with Collective whenever friends compliment me on my home (which is often). The staff is extremely talented, caring, positive, kind and tactful."

– Collective Design + Furnishings client

The Rocky Mountains' premier home boutique

Our interior designers identified two recurring themes in client and prospect conversations: A desire to shop high-quality, high-style pieces locally and a desire to refresh a space on their own without fully sacrificing a designer's touch.

In our retail showroom, we offer a collection of high-end furnishings and accessories that have been carefully curated by our designers to reflect a modern, mountain aesthetic. Browse our store to pick up the perfect accessory to complement your space or customize high-quality pieces.

Open Daily
10am - 6pm

114 Basecamp Way
Frisco, Colorado

Meet our team

Whether you prefer to create your space by shopping our retail collection or want the full, hands-on service of our design team, we look forward to helping you put together great spaces for your Rocky Mountain home.

How would you describe your design style?

Most importantly, I choose to surround myself with pieces that have a memory or meaning. I love to do the same with my clients. Their personal space should reflect them. It should also be a space that brings them happiness.

– Brianna Rasmussen

What has inspired and informed your style?

Traveling is what inspires me most for design. I love city destinations. Mexico City, New York and Paris are a few of my favorites. It's always refreshing and energizing to see new places and architecture. I'll always bring my camera while walking the city.

– Emily Conley

What is your earliest design memory?

I lived in Atlanta when I was very young, and every year, my mom would take me to the Street of Dreams, which was like a Parade of Homes. I remember wandering through those homes and being completely blown away.

– Lisa Yates
